Subject: RE: Request for Information/Documents Regarding Niagara Falls Facility

Margo,

I requested the records from our Division of Safety and Health and was informed that the program was transferred to the NYS Department of Health. DOH should also have more information on the time period these records are retained for as well.

I suggest reaching out to DOH and let me know if you have any further questions.

Margo,

I reached out to our Division of Safety and Health about records for below.

The records may be beyond the retention schedule, but we will let you know for sure once DOSH gets back to us.

Hi Rob,

Thank you again for your assistance.

I am seeking to obtain any and all records from 1960-1970 concerning the Union Carbide Corporation facility located at 137 47th Street, Niagara Falls, New York (also known as the "Union Carbide Metals Company," "Union Carbide Corporation Olefins Division," or "Electromet" facility) and the radioactive material located there.

As a point of reference, I have attached the first page of a mailing prepared by Union Carbide and addressed to Cornelius F. Candee at the Department of Labor. Please let me know if I can provide any additional information to further direct your search.

Best,

Margo
